

Hussein OLLEIK

System Test Specialist

+1 (514) 243-8744 • Email • LinkedIn

Work History

Genetec Inc

System Test Engineer

Montreal, QC

01/2025 – Present

Skills: Extended Events, SQL, System Tests, UI Automation, Debugging

- Uncovered 100+ bugs across complex system features, including critical database issues.
- Collaborated with cross-functional teams to debug issues and improve release quality.
- Developed automated test suites to streamline regression testing, reducing manual test effort.
- Translated technical findings into clear, actionable reports for both technical and non-technical stakeholders, helping inform product improvements and customer release notes.

Sport Connect (Startup)

Product & Engineering Lead • Technical Co-Founder

Montreal, QC

09/2025 – Present

Skills: React, Express, PostgreSQL, System Design, QA Strategy

- Defined the product vision and roadmap, gathering user feedback from the community to prioritize features.
- Balanced hands-on engineering with product ownership duties, effectively bridging technical implementation with user experience.
- Designed QA strategy and built test flows to increase release confidence.

Concordia University

Scientific Researcher and Teaching Assistant

Montreal, QC

07/2023 – 01/2025

Skills: Python, Threat Hunting, LLMs, RAG, Threat Intelligence, Teaching, Communication, Technical Writing, Problem Solving

- Contributed to academic publications and presented research findings on cyber defense strategies.
- Mentored over 100 undergraduate students as a Teaching Assistant in software engineering courses.
- Enhanced communication and leadership skills by simplifying complex concepts and leading lab sessions.

Genetec Inc

System Test Engineer - Intern

Montreal, QC

04/2023 – 07/2023

- Developed a web application tool to streamline testing environment preparation for QA teams.
- Created and executed testing scripts, ensuring comprehensive system-level tests including performance and soak testing.
- Demonstrated attention to detail and proactive problem-solving, leading to a full-time offer after internship at Genetec.

Genetec Inc

QA Engineer Intern

Montreal, QC

01/2023 – 04/2023

- Conducted soak and regression testing to ensure software reliability and performance.
- Executed comprehensive test cases to identify and resolve defects efficiently.
- Demonstrated strong QA skills as an intern, leading to a successful contract renewal at Genetec.

Coveo

QA Automation Engineer Intern

Montreal, QC

09/2022 – 12/2022

Skills: Cypress, Automation, Test Planning, Jira, JavaScript

- Developed clear test documentation and bug reports, enhancing team insight into issues.
- Collaborated in an agile environment with developers and product owners to ensure feature quality.
- Gained exposure to modern QA tools and cloud-based architectures, expanding my technical skill set.

Education

Concordia University

PhD, Information and Systems Engineering, GPA: 4.15

Montreal, QC

2024 – 2025

- Discontinued

Concordia University

BEng Software Engineering, GPA: 3.91

Montreal, QC

2019 – 2023

- Contributed to a publication on Non-Newtonian Fluids
- Assisted professors with teaching and marking
- Recipient of 9+ scholarships and awards, including: *Doctoral Fellowship, Desjardins Scholarship, CAFEL Bourse, Dean's List*

Certifications

- **Certified Scrum Product Owner (CSPO)** – Scrum Alliance 2026
Credential ID: 001810669
